

XCellR8 Quality statement

XCellR8 is fully committed to a quality policy and undertakes to:

- work closely with our customers to fully understand their requirements;
- to recommend the best solution to meet those requirements;
- to carry out all laboratory work to the highest possible standard;
- to clearly communicate on the progress of work;
- to deliver results according to agreed deadlines;
- to report all results accurately and with clear interpretation;
- to ensure full traceability throughout every study.

Our facility operates according to the standards of Good Laboratory Practice (GLP), including full traceability of samples, monitoring and calibration of equipment, secure maintenance of all study records, and maintenance of staff training records.

We partner with formally GLP and ISO accredited labs when this is a customer requirement.
